

Programmable Temp./Humid. -Vibration Test Chamber

■ SPECIFICATIONS

Model	MVH-1000
Temperature range	-70~+150℃
Humidity range	20%~95%RH
Heating up time	From -40℃ Heating up to +85℃ 15℃/min not linear
Pull down time	From +85℃ pull down to -40℃ 15℃/min not linear
Temperature uniformity	≤±1.0℃
Interior dimensions(WxDxH)cm	100x100x100
Exterior dimensions(WxDxH)cm	170x236x270
Interior material	Stainless steel plate
Exterior material	Stainless steel plate
Volume	1000L
Insulation	Rigid polyurethane foam and glass wool
Refrigeration System	Two half hermetic compressors
